1. The attached table shows the total production in the Soviet Zone of Germany, exclusive of the Soviet AGs, for the year 1948 for the principal branches of industry.
2. Monthly production figures for these same branches of industry were obtained for ten months of 1948 (June and December were not obtained). The total given in this report for the entire year seems to be higher than would have been anticipated from the figures already on hand. It is possible that the production figures for the two missing months were extraordinarily high, or that the final total for the year includes some items not previously reported.
